# An Invitation to Non-Resident Membership of a Private Golf & Country Club

You are invited to discover the Non-resident Membership of [Clover Greens Golf & Country Club](#) with access to the world's largest network of private clubs enabling you to experience a lifestyle curated exclusively for the discerning few.

Owned by Roach Lifescapes and designed by Phil Ryan of Pacific Coast Design, Australia, Clover Greens extends to its non-resident members a championship course, a professional golf academy, refined accommodation, and curated dining, all experienced within a setting that is measured, intentional, and quietly exclusive.

This membership is designed for those who do not separate recreation from retreat. A round of golf moves easily into a long lunch, learning is woven into leisure, and time is not scheduled but experienced. For its members, Clover Greens is not simply a place to play, but a place to arrive.

## Clover Greens Life

The Clover Greens experience is structured around balance. The championship course sits at the centre of a composed environment designed for immersion, not interruption. The layout invites focus and mastery, while the surrounding landscape offers perspective and calm.

## Golf Academy

The Golf Academy is an integral part of this world, giving members a disciplined setting for learning and refinement.

Guided by advanced techniques and global best practices, it serves both emerging players and seasoned golfers who value progression as much as play.

## Resort Living

Thoughtfully designed rooms allow members to remain within the landscape, extending a round into an unhurried stay. Restaurants and dining spaces are created for long lunches, private conversations, and quiet moments between play.
